Located in France.

Join the party

Do you want to work on video streaming solutions that amaze your customers? You know everything about video and streaming and always wanted to get more?

So, join the Quortex "tribe"! You will get challenged in a relaxed work atmosphere :)

Responsibilities

As part of the R&D Group, the Senior Solutions integration engineer will set up the Solution Integration activity and team. His responsibilities are :

- Integration of the microservices that build the Quortex solutions
- Ensure the quality of the solutions, through the definition of the test process
- Definition of test scenarios, manual and / or automated
- Reporting on the tests status, thanks to indicators
- Bug management (opening, monitoring of the resolution, verification, etc.)
- Delivery to operational teams

Profile

Engineer or graduate in Computer Science, you are rigorous, diplomatic and have a team mindset. You are passionate about video, proactive and have a good sense of humor.

Requirements

- Experience with Docker and Microservices architecture
- Experience with CI/CD tools (CircleCI, Jenkins, etc...)
- Experience with Project management software (Jira)
- Experience with software version control (Git)
- Experience writing unit, functional, and performance tests
- Skills in Python, Scripting Languages

It would be even better if you have

- Experience with Kubernetes
- Experience with OTT System/Transport layers: MP4, TS, HLS, DASH, CMAF
- Experience with Grafana and, Prometheus
- Experience with DRM (e.g. Fairplay, PlayReady, Widevine, Marlin)
- Knowledge of cloud platforms like AWS, Google Cloud or Azure
- Knowledge of video standards: H.264/MPEG-4 AVC, HEVC
- Knowledge of OTT audio and subtitles standards
